

Angkor Wildlife And Aquarium Half-Day Tour

Trip Overview:

Locate 30km southeast of Siem Reap City, the Angkor Wildlife & Aquarium opened in October 2022 and is the first aquarium in Cambodia. Angkor Wildlife & Aquarium features a 500m³ aquarium featuring freshwater species as well as a 600m³ saltwater aquarium. The main aquarium building houses freshwater species that are endemic to Cambodia, Thailand, and Vietnam. There are also 10 hectares of outdoor animal exhibits and attractions including tigers, river otters, and crocodiles.

What's Included: Transport by Tuk Tuk, entry fees, bottle water.

What's Not Included: Travel insurance, meals, personal expenses

Pick Up Details: Pick up and drop off at hotel

Detailed Itinerary:

Pick up by your driver and set out 30km out of the city. Angkor Wildlife & Aquarium is the first aquarium in Cambodia featuring a 500m³ aquarium featuring freshwater species as well as a 600m³ saltwater aquarium. The main aquarium building houses freshwater species that are endemic to Cambodia, Thailand, and Vietnam. There are also 10 hectares of outdoor animal exhibits and attractions including tigers, river otters, and crocodiles. Some of the critically endangered species such as: Siamese Tiger Perch, Giant Pangaius Catfish (which weigh more than 300 kg), Mekong Giant Catfish (which are three meters long), Giant Freshwater Stingray, Mekong Featherback, and Marbled Whipray. In the saltwater aquarium, visitors can appreciate and learn about species such as whitetip reef sharks, bull sharks, spotted eagle rays, and others. The visit should take 2 to 3 hours. Back to hotel.
